

SolBets Prediction Market

Decentralized Prediction Markets on Solana.

by maxkup19 Kupchenko (@maxkup19)

The Problem

1 Centralized Control

Platforms hold funds and set rules.

2 High Fees

10-15% fees eat into profits.

3 Limited Access

High barriers to market creation.

4 Lack of Transparency

Opaque resolution processes.

Our Solution: **SolBets**

Create Markets

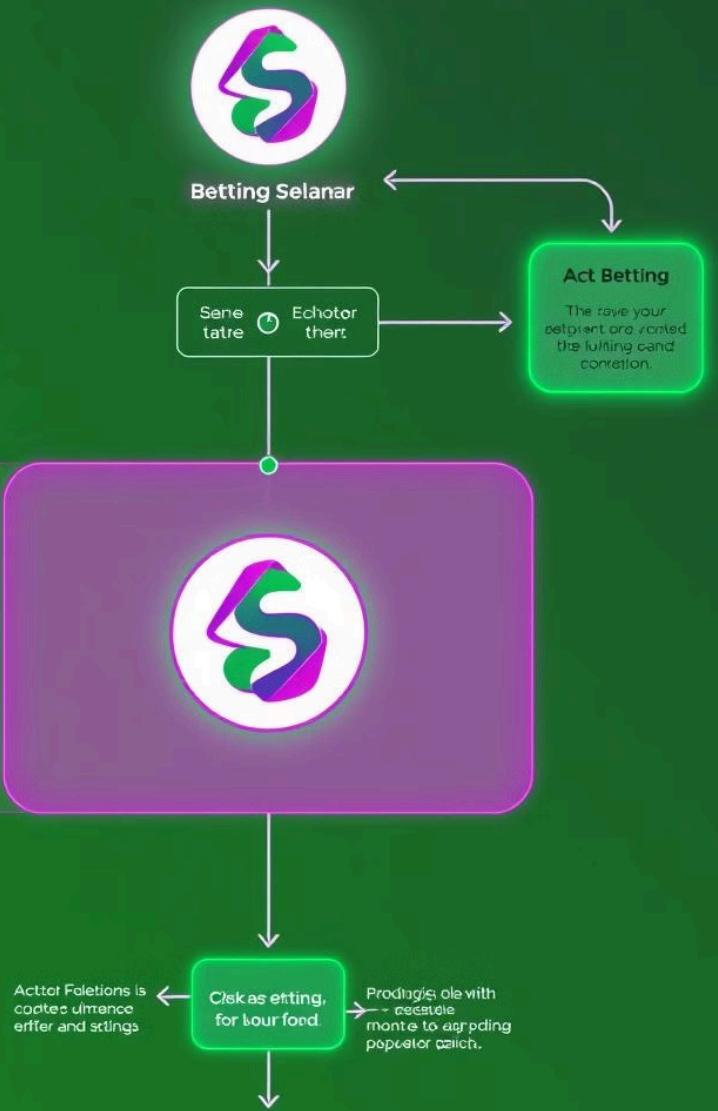

For any verifiable future event.

Place Bets

With minimal fees on Solana.

Maintain Custody

Of funds until market resolution.

Solana

How It Works

Create

Market with question and expiry.

Bet
